

Celebration for Aurelia Louise Jones

Welcome from the President of the Telos Foundation, Nicole Doré

Nicole Doré – First, I would like to welcome H  l  ne, Aurelia’s sister. We have a small corsage for you.

Denise – Aurelia asked us to keep contact with her family. We want to keep in touch with you not only because it is Aurelia's wish but also because it is important and that you are part of the extended family.

Nicole Dor   – We also want to welcome Guy, Aurelia's brother. It is an honor for us to have you here. I know that there are other members of the family present that I do not know. I would ask H  l  ne or Guy to introduce them.

H  l  ne Jones – This is Diane, Guy's wife, my son Michel, my other son Daniel and my husband and two good friends, Fran  oise and Th  r  se who know Aurelia.

Nicole Dor   – It's a real pleasure to have you here! I do not know if most people are somewhat surprised to learn that Aurelia has left us.

About a year ago after the last trip to Kauai, Hawaii, she started to feel not so well but we thought that she would get better. We have done a lot of healing with her since March. In fact, we met every week, sometimes every 2 days to work with her energetically at distance, over the phone. Aurelia was always present with us to assist in her transformation. We did not know what the transformation would be. We did not know if Aurelia would remain on earth or leave.

Sananda had explained to her that the ascension could be made with or without the body. She had to surrender to her Soul because it was her Soul that was choosing, not her personality. Of course, Aurelia wanted in her personality, just like us, to ascend with her body. But her soul's desire, as our soul's desire, is unknown. We just know that our soul asks us to surrender.

And when we live an experience like Aurelia lived, surrendering is something! It is much larger and more difficult than we might think. Aurelia first learned to cleanse all her bodies, her suffering bodies, her sorrows, her fears. She had to release all that to really accept what her soul wanted to live. It has been quite a journey. We are forever grateful for all the work she made us do because what she has learned, we have learned too. We have really progressed with her.

We have not let everyone know because we did not want to instill an energy of fear that could have impeded the healing energies. Because if we had said she was sick, she had cancer and people said: That's it, it's over! We know what thoughts the ego can have. We really tried to remain constantly in surrender and do no action without her Soul's permission. We always asked that her Soul made the choices, not Aurelia nor us.

All the work she has done to transform into Light her questions, fears, pain, suffering, was also done for Humanity because we are all inter-connected energetically. You have benefited, the Earth has benefited. We also have learned a lot and have done great healings on this journey with her. We cannot see it now but much

suffering has been released because of her work. This does not mean that we have to suffer (**this must be very clear!**) We do not have to suffer to ascend. It was her way and it is not everyone's way.

The ego is very afraid of surrendering. We let go but we still hang on a little bit in case our soul does not quite know what it is doing. (Laughter ...). The personality knows that its time is counted. It hangs on a little and we, with great sweetness and lots of love, lots of light, must tell it: "Do not fear, there is nothing bad, it will be ok." In the last months, Aurelia really went into her Heart. She was accepting. Toward the end, she was no longer into suffering, she was in peace.

Aurelia has chosen this path to show us that we do not have to choose the same. We no longer have to suffer. Today, what we need to do is have fun. We must be in joy, in peace, in plenitude, in surrender, in trust. We must learn to stay in the Heart. In short, this is the message Aurelia gave us in the recent months.

That is not the only reason why we wanted to celebrate her today. When I started reading her books, it changed my life. These books have changed the concept of life for many. She taught us a lot through her writings, her initiatic journeys, everything she did. This has created some incredible changes in us and we will continue her mission, by the way she is with us now. We will continue on the same path all together.

The foundation is a group of people. We are eight on the board now. I would like to present them to you because each member works very, very hard. Sylvie Crevier, Denise Laberge, Francine Renaud, Jacqueline Cadotte, Colette Julien, Janine Leclerc, Nancy Fuoco and I, Nicole Doré.

And I would like to salute Lise Leblond who was on the board for several years. Before us, there were other people. The Foundation has existed for several years and will continue the work Aurelia began till the Earth's ascension. I do not know if we, the same eight persons, will be there to the end. I do not promise that I will be there until then and I cannot promise for the others, but the Foundation is here to stay and continue the work of our big sister, the Great Lady Aurelia.

I will now let H el ene Jones talk to us.

H el ene Jones – I think she is here with us now? So I am speaking to you my dear little sister. I am addressing myself to you.

"It was time for you to leave this world that you wanted and managed to make better. You have given your body and soul to your mission. You spent most of your time and energy on a single path in your life, the path of spiritual growth and Love. You dignified your soul. You believed in the values of Eternity. You surpassed yourself. You integrated well in your life this saying: "Who rises, rises the world with him. "because you have managed to establish a complicity of Heart and mind with many people on all continents.

Thank you dear sister for having enriched our lives. Thank you for your mission accomplished. Thank you for being who you are. Thank you for having been an example of faith and courage through all the tests. My beautiful little sister you are now in the Light. The music of your soul will unite with the eternal symphonies.

Go now toward a new joy. Go toward a new happiness, in great delight. For us, your light will always be shining in our lives and the lives of all the human beings you touched. Thank you for being in my life, in our family."

(I would like to digress a little. My sister has lived exactly what my mother had experienced. My mother died of cancer in incredible pain and she was always cheerful, totally surrendering to God's will even if it meant leaving four young children, I was the eldest.)

"Go my beautiful Aurelia. Be happy forever. At my age, I can tell you: see you soon. Your big sister who loves you."

Group – Applause.

Guy Jones – “My Dearest Louise, it’s your big brother Guy who is paying you his respect.

Throughout our lives we had to navigate the ocean of life with the boat which had been loaned to us to pursue the path that had been plotted. Very young we lost the captains of the big boat that was our family. Losing our parents very young, we had to sail by ourselves, but another captain took over. The captain, called H el ene, has continued to lead us in the right direction. Thank you H el ene for your love. Scattered by the circumstances, our reunions were always happy and we shared our life experiences. (We were separated, we went here and there. At Christmas time we would reunite.)

Your love for humanity took you far away to continue your mission, but in our hearts you were always close and our love for you filled the void of absence. We knew that you had to accomplish a mission and this mission was so noble that we could only have admiration for you. We keep very good memories of our beautiful and funny Louise, with a Heart as big as the Universe, who was trying to make our passage on Earth more harmonious and evolved with her writings that have gone around the planet. My dear Louise, we love you, protect us where you are.

From all your family, from your brother, your sister and your family. We love you and this is what I wrote.”

Group – Applause.

Nicole Dor e – Beautiful!

Guy Jones – We lived through difficult times, the loss of our parents and thanks to my sister H el ene who took over, we did very well. Thank you for your presence and let’s continue the ceremony. Thank you!

Nicole Dor e – Thank you very much. I invite Denise to come to the floor ... we’ll see!

Denise – While you were talking, I felt that Aurelia was putting a mantle and a crown on each one of you, but the crowns and the mantles were different for each and they did not have the same color. It was really special. It was as if she recognized what you have brought to her life, to humanity and what you continue to bring. So, she made you a gift. She said: “From the former queen of the Lemuria.” You have privileges, you have connections! Your sister is alive and well where she is now.

It’s funny because just now she was talking and I told myself: “Is it possible that she is speaking to me? She just arrived on the other side. Is she already in action at work. We do not fool with the puck.” She may very well come and talk to us later. I think we will have beautiful messages.

We will begin with the protection. Is there someone who has not seen a channeling? Do not be afraid, I will not float in the air. (Laughter ...) I thought that since it is for Aurelia, I would invite the Seven Masters of the Seven Rays to come and give her a special message in our dimension to celebrate her arrival in the Worlds of Light. There is nothing too good, then we will see who will come. I have thrown this to the universe and I know that the Universe listens to what we think.

We will let Sananda speak. I think that he will be the leader of the ceremony to celebrate Aurelia tonight.

Sananda

I greet all of you tonight. I am Sananda. I put my hand over your group and I bless each one of your thoughts, each one of your emotions. I bless each one of your heartbeats because we are celebrating today in your dimension the arrival of our dear sister Aurelia in the World of Light, in the world she always cherished deeply in her Heart. Be in joy. Be in joy because the words you'll hear tonight are meant not only for Aurelia but also for each one of you, for each soul because you are here in this dimension to learn to love, especially to love yourself. This is the most important task for everyone. The reason for the existence of this dimension is to manifest love in all its colors, all its flavors, all its harmonies. This dimension is a valuable, beautifully exquisite and perfect school, but how terrific for people who enter it without preparation. This world in which you live is full of challenges because it takes great courage and perseverance for the souls who dare to venture into this dimension that has forgotten the essence of Love, the essence of Light.

So we are here to say "bravo!" Bravo for the work, for the courage you show every day, every hour, every minute especially with the vibrations that occur in this dimension now in 2009. You feel that everything is accelerating, don't you? You feel the energy bubbling inside of you and several times a day, a week, you say: "What should I do with all these choices, with all these priorities to establish, what must I do?" Often, you do not know which way to look as events rush around you. Do not worry! Without knowing it, without being aware of everything that happens around this planet, you are surely and certainly guided toward the 5th dimension, where time no longer exists. You are pushed, in spite of you, to live every moment as an eternity. When you think about the past week, the past month, it feels as though it was a year ago. So, know that everything is perfect. You are being pushed toward Eternity, toward the Present Moment, toward Surrender because the 5th dimension is a dimension of love where every moment is eternal, where every moment is lived fully in trust without thinking about what others think, about what others are doing. Only thinking about what you feel, what you want, what you want to feel and express in the now moment.

And for that, the events that are currently around you are a large elastic scale with which we are playing. We play with the elasticity of time. Some of your days will appear very long while others will appear very short. We play with this dimension of time that you live, or rather that you experience in your dimension now in 2009. Here is a friendly advice: learn to surf on the waves of life that come your way with their lessons. There is not one single event that happens in your life that does not bring you a lesson. Know this! Nothing is left to chance. Each event that occurs in your lives is there to push you toward your freedom. Watch how you behave. Observe how you feel about what goes on inside of you. Observe these emotions. These emotions are a key that helps you identify the pain, the belief, the thought to modify or release.

You live in an unreal world. A world that the human ego has created from scratch. A world of suffering that takes you away from the real life of your Heart which can only be a song of joy in every moment. So I, Sananda, I say to you:

"Open your eyes. Open the eyes of your soul and contemplate Life around you.
Learn to marvel at each second, each minute that passes in front of you.
Learn to marvel at the air you inhale and exhale.
Marvel at the sun in the sky, at the clouds that travel in the sky.
Marvel when listening to the noises around you, these sounds."

This way you will come to understand, to touch the Heart of Love because all that exists around you was created by the Pure Love of the High Spheres of Light, the Pure Love of Father / Mother Creator. Everything around you, all the situations, the emotions, the thoughts are but reflections of the same wave and too often you focus on its ripples, its impressions. Too little time is devoted to contemplating what is going on inside you.

Do you know your soul's deepest dream?
Do you know the mission you've chosen before you embodied?

Do you know the joy of your inner being? The one who created you.
Do you take this precious time to learn to know yourself?

What we see, from the Worlds of Light is that humanity is running. Every man runs after his past, runs after his future and he does not stop to listen to the beat of his heart, to look at the dreams waiting inside of him and especially to dare choosing one dream and live it. If every human being who lives on the planet stopped, listened to his heart, discovered his dreams and rose to realize them, this planet would be at peace. This planet would live in love, joy and harmony for every human being would be in his place. The place he chose to live, to manifest in this dimension. What we observe is that every human being is in the place of another. You are in the place of the dream of your parents, friends, society. You are the dream that is projected on you, for you. You do not live your dream!

Today I, Sananda, invite you to observe, to watch the dreams that are in your Heart, that live in your Heart and dare to express them in your life. Dare to live who you are! Show what you really are in this dimension, in this physical body, in this Sacred Temple and your life will change. You will sail on the waves of the Great Life that will take you to the right port, to the right place, to the right moment, to the right time and you will live Eternity.

That's what I wanted to tell you tonight. What I wanted to share with love and respect with each one of you in this great day of tributes to our great sister Aurelia. We salute her courage. We salute the light of her shining soul and we tell her: "Welcome!" Welcome into your family, here in this World of Light that you have been searching for thousands of lives. See you soon!

Mary

Good evening everyone. I'm Mary. My eyes marvel at the Love Light that you are radiating. There is a beautiful and extraordinary aura shining from your group. You reflect the colors of the rainbow with shimmering shades of pastel, of mother-of-pearl. There are exquisite colors emanating from each one of you. I thank you for gathering this evening, for coming to share these moments of Sacred Light with your dimension and our dimension in the Dimensions of Light, in that Eternity, in that infinite space that touches the entire Creation. Know that many of our brothers and sisters from several universes, from different dimensions have joined us this evening on this very special occasion. Aurelia Louise Jones is known in the dimensions of Light. The Great Central Sun knows her. Her Heart of Light shines in all the Creation and it is an honor and a privilege to be all together today at this point of Eternity, in this space-time that touches all of these realities: yours and those you do not know yet.

There are presently 233 circles around your group and each of these circles resonate with universes of the Dimensions of Light. Each of these circles amplifies the waves of love emanating from your hearts and that Love is sent to all the Creation. That Love has the color of your souls and the blessing of Aurelia's soul which brings a special color to your group this evening.

Indeed, Aurelia is here. She came with all her friends from the invisible world who work for Mother/Earth. She is surrounded by the Gnomes and the Fairies. She is surrounded by the Unicorns, by the animals of Light who have always worked with her. There is even a circle of Dragons, which is above your head now and these Dragons are working to unite your Sacred Hearts with the Hearts of Dimensions of Light all the way up to the Great Central Sun. So take a deep breath and accept these dew drops of Christic Light that are sent from the Great Central Sun to your Sacred Hearts. Receive this Golden White Light as a blessing because it is a gift from the Worlds of Light in honor of Aurelia, in honor of Telos, in honor of the opening of the Hearts that Humanity has experienced through Aurelia's work. Let us share this sacred moment. We will take one to three minutes of your precious time to enjoy this light that unites your dimension to the dimensions of Light, to the entire Creation. Feel these adjustments that are happening in you. (Silence)

Breathe this light that spreads inside of you from your Sacred Heart, your Chakra of the Heart. It is an exquisite light that carries the Seal of the Great Central Sun. This light is in perfect harmony with your being. It brings Peace, the Light of Christ. It will help the Light of your Christic Self to anchor deeply, smoothly and in harmony with each of your cells, each of your atoms. Feel the peace that is settling in each one of you.

Now visualize that this light, this love is growing, it is enfolding you completely. Imagine that this light, this love surrounds your entire group (Silence ...)

You are forming a sun and now feel the 233 circles around you. Circles of friends from the Light, from the Worlds of Light and feel them uniting their Hearts with your Sun. Feel an amplification, an amplification of Light, of Love, of the Peace inside of you. Feel the unity with all these dimensions of Light. You are one Light, one Consciousness, one Love.

And now visualize that this light, that the Sun is expanding to cover all of Creation. You are One with all that exists, One with all the consciousnesses, One with the Great Life. (Silence ...) And Now, very gently, come back to this room. Enjoy this moment of peace, this moment of light.

Now I would like to let somebody else talk to you. We refer to them as the Group of Seven, the Seven Sacred Rays of Light who want to bring you a message tonight.

Masters of the Seven Rays

Good evening Earth beings! How are you tonight?

Group – Well!

MSR – We love this Extraordinary “well”! In fact, we are more than the Seven Rays. We are the rays emitted from the Great Central Sun, the Sacred Heart of Father / Mother God the Creator. The rays you often speak about and whose Masters' pictures are hanging on the walls of this room are affiliated with us. We are the rays emitted directly from the Heart of the Great Central Sun and the rays you talk about are like the manifestation in your dimension, in your universe, a reflection of the original rays. Do you understand?

So yes, we are seven. Seven colors, seven vibrations, seven energies and we have the same name. We are variations of colors, of flavors of the word Love, that is all. When you think of the rays, just think of the word “Love”. The word Love is a symbol that represents the pure essence of the Creator. In your language, this word does not represent anything.

We have come to talk to you about Love. Isn't that simple? Love. You know that word, don't you? But do you know its essence or rather its quintessence? Do you know its true meaning? All of you here, each one of you represents one aspect of this Love and these words you hear are true. Write them in your hearts. This is important! Each one of you represents a unique, perfect, wonderful and exquisite piece of Love.

You are all our children. You are a part of our consciousness ONE. You wanted to experience Self-Consciousness, to experience life as a single entity, different but you are like a drop of water in the ocean. Can you separate the drop from the ocean? No! The drop is part of the ocean and the ocean cannot exist without each one of its drops of water. Each one of you represents a drop of that ocean of Love that is Creation in the Universe. You are without knowing it, unified with the Creation.

Within your Sacred Heart, in your physical heart there is an atom, a tiny atom. I do not say a “cell”, I say an “atom” and this atom is conscious of belonging to the ocean of Love which is the entire Creation. This atom is in you! Did you know? This atom has the same vibration, carries the Creator's Love energy, carries our energy.

We present ourselves in seven colors, seven sacred attributes, but we speak the same language. We are Love expressed with different energies to help you recognize yourself because each one of you belongs to a main ray that is connected to the Ray of the Great Life. You represent a color, a musical note, a perfection, a wonderful and extraordinary consciousness.

We are in awe of you, of the beauty that you are, of who you are and it would only take a moment of awareness on your part to recognize your greatness, recognize your eternity! Recognize that you belong to Infinity, to Love, to this ocean of Love that supports all of Creation. All you have to do is to recognize who you are. But how can you recognize who you are? Simple! You only have to identify what stops you from realizing it!

What prevents you from believing you are eternal?

What prevents you from thinking you are a being endowed with all the Divine Sacred Attributes of the Creator, the Great Builder of everything that exists? The beliefs, doubts, fears, traumas, emotions, judgments, thoughts. You understand?

You live, you experience a dimension where everything seems separate, everything seems divided, yet it is not. Everything is united. There is nothing separate. So from now on, learn to look at the links between all things. Learn to see how everything is synchronized. All movements and all situations interact with each other. There is nothing separate in your world. Stop separating. Stop seeing everything as separated and divided and soon your eyes will be seeing a new life. A life where everything is said, where everything communicates, where everything is united, where everything is renewed.

There is not a single atom that moves in your dimension without it being aware of its unity with the Heart of the Great Central Sun. Not a single atom! Every atom that composes matter is aware, is light. It is you who have created a world where you have separated everything.

We tell you these words so that you can meditate on them, think about them and that you start seeing how everything around you is linked, everything is perfect. There is no evil. There is no good. There is only experience and energy to discover who you are. Stop absorbing all the beliefs that are projected on you by everyone. Stop accepting the ideas from your parents, your friends, your culture. Look at what is happening inside of you, the dreams that you have. Find your dreams and eliminate anything that does not support them and soon you will discover the person, the Being of Light that you are, the Divine Consciousness that you are. And you'll learn to observe how everything is connected, how everything associates with each element, each moment. Do you understand these words?

There is a new way of life to discover, a new way to look at life. Especially a new way to look at yourself. Change your perception. Change the way you start your day. Observe with different eyes. With eyes that unite everything, that see the links between all things and you will notice how everything is alive! How everything is intelligent. How there is nothing that moves around you without a consciousness. Do you understand that?

Nothing moves around you without a consciousness. Everything obeys your inner consciousness, your thoughts, your beliefs because everything is alive. You create your life minute by minute, hour after hour. You create what you are. You create the events that occur around you and within you. **You are very powerful! You have all the powers.** So when will you decide to watch what is happening inside of you, to look at what you are and to open new eyes on life?

Imagine that every night you take 5 minutes. You sit quietly in your home, in a place reserved for you alone. And you imagine that you put glasses, not any glasses. Glasses that see life as we, the Sacred Attributes of the Sun, do. Imagine that you look at your life with our eyes, our perception, our love, our consciousness, our life. And this is very simple:

Exercise

Imagine that we are inside of you. Calm your mind. Take a deep breath and imagine that we, the Seven Creator Rays, are in you. That we are in your Heart and are shining.

Then look at your day. Look at what happened around you with *our* eyes, *our* consciousness. And listen to your intuition. Listen to the images that arise in your head, in your Heart.

Observe them and this way you'll learn to change how you look at your life, at Life.

This is an exercise that we give you and of course when you take those 5 minutes to do it, you call us. You ask us to help you look at life with our eyes, our consciousness, our life. Do you understand that? As you are all powerful and as your thoughts, your emotions are of the dimensions of Light, as soon as you formulate this intention, we're here! And we can guide you, teach you, transform you.

Children radiating the power of Christ in this dimension, we salute you and we say <see you soon> in your favourite chair at home.

Aurelia and Ahnahmar

Denise - I think someone is coming to talk to us! I think this will be the last message. (Silence ...) I do not believe it, wait ... (Laughs ...) I think it's Aurelia who is coming to talk ... (Laughter ...) OK OK, here I go ... She's talking to me ...

A few months ago, I was speaking with Aurelia and she asked me: "Could I use you as a channel if I go to the Worlds of Light?" Her question surprised me a lot but I said yes. I did not expect it to happen so fast!

Aurelia had such humour. When we were in Shasta, in June 2009, we were near her in her bedroom, she said to Janine who was holding her bottle of water. Sometimes we held it for a long time before she took a sip. So, she opened one eye and she said: "Janine, would you hold my bottle of water?" and then she added: "Until tomorrow morning!" (Laughter ...) Her sense of humour was extraordinary.

First message from Aurelia Louise Jones

Aurelia L.J. – How are you tonight?

All – Good!

Aurelia L.J. – Indeed, I am very happy. In fact, I am exultant with joy. I want to present myself to you in a different image tonight. I am Aurelia and I stand before you as the one who dared to carry the torch. Yes, I am pleased with myself, with the work I have done and in fact, I am also very pleased that we are meeting this evening to celebrate the great work that I have done. What delights my heart so much is that I do not feel any sadness here tonight. It warms my heart immensely because I want joy. I want you to feel my joy! My great joy! The joy of work done. I can say with sincerity: MISSION ACCOMPLISHED! I succeeded in my mission. I accomplished each point of the contract I had signed before my incarnation. Of course, I did not know then all the details, especially the ones concerning the last months of my life on this planet. Had I known, I would have thought again before signing on the dotted line. I must confess that this part was not easy, that it was very difficult but I am very pleased with myself! Very, very pleased indeed! I did not believe I would succeed.

I came tonight and I brought each one of you a gift. You see, I am celebrating my victory and I will not celebrate alone. I prepared for each one of you a special gift! And I took care to wrap them one by one with my

hands of Love, you see! Do not doubt this. I brought these gifts and I am depositing them in each of your hearts that I know intimately. Yes, we have spent many lives together since the time of Lemuria and that's why you're here tonight with me to celebrate my victory. Yes, this is a great victory not only for me but also for humanity. When I embodied in this dimension, it was not certain that mankind would accept the books I have written. It was even possible that I would not write anything because there was a doubt in the Worlds of Light whether the heart of humanity would accept the reality of Telos. You understand that?

So, congratulations to humanity for having accepted these books! Rather, congratulations to Humanity for having opened its heart to accept them! If humanity had not opened its heart, I would not have written these books.

It is a victory for humanity, a victory for the Earth and a victory for me because in this great adventure, nothing was certain. Everything depended on the opening to love of the Heart of the Humanity on this planet at this special time for the future of humanity and the future of the planet. You understand that?

In fact, I am very impressed. We have succeeded together. We have created an opening of mind, an opening of incomparable light, ten times brighter and more powerful than had been anticipated. This means that each one of you here today radiates like lighthouses, like bright torches. And everywhere you walk, everywhere you go, you sow an energy of Light, a Conscious Energy that feeds the heart of your brothers and sisters.

The quality of love that is infused into the Telos books has now spread on the planet in several countries. This special quality of Love moves from Heart to Heart. This quality of love is a quality of Christ love, a special quality of high purity which is very close to the Sacred Heart of the Great Central Sun.

So when you work on your characters, when you work at finding who you really are, you are discovering, you are dusting off this Heart. You are removing the veils so that the Light, its Perfection can shine more and more. And you feed, without knowing it, all those you encounter during your day: at home, at work and on the sidewalk. So, all together, you are making a wonderful and extraordinary job at awakening people. I, Aurelia Louise Jones, come today accompanied by a large delegation of beings who inhabit the dimensions of Light. Together, we have come to celebrate the victory of humanity, the triumph of Christ Love on this planet, for humanity.

Today, be proud of who you are, of what you have done. Let this pride overflow on all humanity, in the Heart of every being, man, woman and child and also in the heart of every dog, every cat, every animal, every bird! We must not forget them either, you understand? I have always loved animals, you know that? Because all the unicorns, the dragons, the kingdoms of the animals that mankind has forgotten always lived in me. Remember that every dog, every cat is in contact with these animals, with these kingdoms that humans believe have disappeared. So, congratulations! I congratulate you and I congratulate myself (we must not forget ourselves, must we) for the great job done.

I would like you to take a few minutes once you get home, to discover the gift that I've prepared for you. Know that this gift is in relation with the beauty of each of your souls. I chose this gift by reviewing your last seven lives. Each of these gifts is a symbol which represents the divine, sublime, wonderful and extraordinary quality that you have developed in these seven lives. I'm a teaser, am I not? (Laughs ...) I received lots of help too. Know that I did not do this alone. Your higher selves were with me. In fact, we gathered in a large room and we discussed, watched, weighed, reweighed and weighed again in order to decide the perfect gift for everyone. Above all, do not doubt these words! They are true! You know that in the Worlds of Light, there is no time.

So, congratulations to all of you for coming here tonight, for believing in the Life of the Light, for believing in eternity, for believing in the wonderful and extraordinary beauty of your Sacred Heart, for believing in Telos and in the Worlds of Light. Till the next time!

All – Applause!

Denise – I see her dancing! I do not know if you see it but it seems to me that she is dancing. She says: – “I *am* really dancing!”

Michel (Aurelia's nephew) – Ahnahmar would like to speak!

Denise – Ok, we will let Ahnahmar speak!

Ahnahmar

Ahnahmar – Hello! I do not speak very often. The last time I came here at the Foundation, there was an initiation ceremony for members of the Foundation in the space below. It was a moment of great rejoicing, because it was a first step in the physical manifestation of Aurelia's mission. Aurelia who is now at my side. We are now together and my message is mostly for the members of the Foundation. Aurelia had a gift for everyone present here tonight, there is also a gift for the members of the Foundation, specifically for those who are on the board of Directors.

There have been changes. One can say that we are now in the version 2.0. There was a first committee and energetic adjustments had to be carried out. Other people have taken over and you have now graduated to the 3rd floor of this building.

With Aurelia's departure, I want to tell you that now it is time for you, the members of the Foundation to take the torch. While other Beings of Light spoke, a torch was lit for each one of you and I ask the leading members of the Foundation to come forward, please.

The torch is about, I would say, a good two feet or 60-70 cm, and I ask the members of the Foundation to join hands and form a circle. In this circle there is a Force, there is an Energy. You will play, not the entire role, but your part of the role by allowing yourself to receive this energy that is channeled through all of us in Telos and the Masters and all those gathered here. Let this energy transfer into your torch and it's up to you to take over. It's up to you to let yourself be inspired, to listen to your Heart and to develop, expand and grow exponentially what Aurelia started. This Lemurian Consciousness was not, we could say her baby. She was only a messenger of the Masters. She did her part and now it is time for you to do yours. So put your hands on your Heart and accept the present we are giving you. We are very proud of the efforts you have made here to support Aurelia in her last year and she is very grateful. We are also very grateful because you helped her in your way to accomplish what she had come to do and we can say, as she said earlier: MISSION ACCOMPLISHED! So to all of you a big thank you. There is applause from all those gathered here (5th Dimension) and I think those who are gathered in the room should also thank the members of the Foundation.

All – Applause!

Ahnahmar – So that's all I wanted to share with you tonight. Thank you all for coming to share your love and do your part to thank Aurelia and help promote the Lemurian Consciousness, the love and to spread it from your Heart to the Heart of those you meet every day and also with the entire humanity. Thank you!

All – Applause!

Denise – What can be added? Thank you Michel! We will thank all the beings who have come from the Worlds of Light to celebrate Aurelia Louise Jones' new life.

Someone in the group – I brought a song to celebrate Aurelia

Song on the air of : **C'est la fête de Michel Fugain**

Tu as enfin réussi
 Bienvenue au Paradis
 C'est la fête, c'est la fête!
 Tu as enfin réussi
 Bienvenue au Paradis
 C'est la fête pour toi Aurelia
 Chantons, dansons et festoyons
 Pour ton ascension
 Rien n'est plus pareil
 C'est la fête!
 C'est la fête!

(Note: the song says something like this: thank you, you have succeeded, welcome to paradise, let's celebrate)

Denise – Aurelia said she is overseeing the celebration! (Laughter ...) She's so happy. I feel her great joy.

Nicole Doré – I would like Nancy to come here. We want to give a little something to everyone. In the last trip to Mount Shasta, we took a photo of Aurelia with a group. Nancy is our website expert and she has made some touch ups with the computer. She is talented, you will see. It was a photo of Aurelia with others and Nancy has succeeded in a few days to get this picture ready. You will see something special. I will let Nancy explain the story.

Nancy Fuoco – This picture of Aurelia was taken at an ascension ceremony. She was sitting on a golden chair. She loved ascension ceremonies. So I cut Aurelia out of the picture and I put a nice aura around her. I saw her with such a big heart that I put a color and a light in her heart. When I got the picture developed there was a little gift from spirit. I don't know if you know what an orb is? It is when you have the presence of a spirit. You can see it in a developed photograph or in a digital camera. So when the picture was developed, we saw an orb in her hands. It's like a circle of light that you see around her hands where she is holding the crystal.

No, I did not do this. I put a beautiful light in her heart and beautiful colors of pink and gold in her aura. When I saw the picture, I knew I hadn't put it there, it just appeared. There was a lot of energy in her hands with the crystal. An orb is the presence of a spirit, so it is a small gift. I thought this was a lot of fun.

Nicole Doré – Thank you very very much. She was the one who prepared the picture and had them developed. We want to give one to Guy as a souvenir, we have another one for Hélène and for everyone. We have laminated it like Adama's (Laughter) We said Adama is laminated. I do not know if he likes it when I say this. (Laughter) It is a play on words. (Laughter) So that you can keep it intact with you. Now, we will finish the evening with a sparkling apple cider and a chocolate. When we went to Mount Shasta for initiatic journeys, on the first day it was important for Aurelia to welcome us and she always prepared a buffet, except for the last years when we finally were able to convince her: "can we buy?" She did that by herself for all the groups. We thought it was a lot of work for her and because we were arriving with the group, we could not help. In recent years, she finally agreed to let somebody else take care of it. So we decided that instead of a buffet, we would have a chocolate. There is no buffet. We followed the advice we had given. (Laughter) I'm doing well! (Laughter) I think she is helping a little. We have a chocolate, a little sparkling and then we will distribute the pictures and we'll have a drink to her health.

For the people who are on Team Speak, we also invite you to get a little sparkling, a little apple juice, water or something because it is going to be blessed and we will send you a laminated picture also.

Denise – We are about 30 people, for those who are not at the local. (Pause) I think that Aurelia will do the blessing. She says: “I take my role seriously.” (Laughter) Everyone has a glass? Everyone has a drink on Team Speak? Ah! Daphne has her drink ready on the internet. She is in France! Hello Daphne in France! Jean too! Well, everyone has juice, water, a glass of milk, and I think it is really Aurelia who will come to do the blessing, I will let her speak... (Laughter) because she is speaking to me at the same time and you know Aurelia’s sense of humour.

Aurelia – So my children, my friends, my family I ask you to carefully look at the glass in your hand because I will add a touch of magic with light, I brought with me a magic wand. Do you see it? I asked my friends the fairies to charge it with luminous love and joy and with the help of the Queen Fairy, she has her hand on my wand in my hand. Watch the magic in front of you. 1, 2, 3, Tring Let’s be serious.

I ask Father / Mother God the Creator and your presence I Am to bless this liquid that you, incarnated Divinity in this form, in this dimension, hold in your hand. So, I ask this Divinity to add a part of itself, to share some of its Love, its Light, its Grandeur and its Eternity with this liquid, this elixir. So my children, my friends, my family receive this special blessing from the Great Soul within you, this presence who speaks to God, who speaks of God, who is God, who is Light, consciousness, unity in all things. So, drink in recognition of who you are, in recognition of this sacred moment today where I make contact with you from the other side of the veil. I did not leave you. We work together. We continue together to liberate all humanity, to liberate the Earth so that Light, Love, Grace and Joy move in this dimension. And so it is! To each of you, I'm Aurelia Louise Jones. Am I not gifted? (Laughter)

I practiced all afternoon for this gesture. May the joy be in you! Taste the exquisite beauty of the Presence, of the magic of your Higher Self, which was deposited in the liquid you are now drinking. It is sacred and special.

Denise – For those of you who are on Team Speak, we will leave you now. Thank you for staying with us. Nicole do you want to add something?

Nicole Doré –Two things, first H  l  ne Jones brought a picture of Aurelia when she was around 35 years old.

H  l  ne Jones – Apparently on the other side we get younger so I think that’s what she looks like now.

Nicole Dor   – We bought a book that we put on the table for Aurelia and you are welcome to write a few words in it. We have completed the ceremony and you can talk together. If you have any questions, we’re here to answer. You are invited to stay and talk with us. And the celebration continues!

Denise – Goodbye to everyone on the internet.

Nicole Dor   – Thank you for staying online with us. Thank you for your presence. Everything has been recorded, we will eventually put it on the website and we will translate it in English.

Thank you all and until next time. Thank you for coming and participating at the ceremony to celebrate the new life of Aurelia Louise Jones. Bye! Bye!
